

BCC Surface Dryer

TECHNICAL DATA:

Power rating:	1 kW
Dimensions (L x W x H)	1350 x 1250 x 1700 mm
Noise level:	65 dB(A) (max)
Electrical connection:	230 V, 50 Hz

The wet seedlot is placed in a dryer box with perforated bottom to allow for air flow through the seedlot to allow it to dry faster. A high volume air stream blows through the seed to dry the seed for the next process.

Please contact BCC AB or your local representative for samples and prices.
